DTL Report for the 100 target medley, 13th June 2026: 50 db, 25 sb and 25 points score.

1/ Preamble: Crusher Joyce, returned from his Qld sojourn, was keen to get the morning set up under way. Mick Peck aka the trap master was looking ruefully skyward and at the nearby trees yielding to the rising pressure of the winds. Another sneak peek at the trap master – fun was about to begin.

2/ Shooting Conditions: We were greeted to brisk winds from the N-N-East at 20-25 km/h with gusts up to 40 km/h, an annoying smattering of showers created some irritation but fortunately the rain held off until end of competition approximately 3.00 pm. Top temp of 17.5 degrees C. Dew point 10-12 degrees – typical for a cool winter's morning. In general a damp and blustery day typical for June on the Mornington Peninsula

3/ Traps and Targets: Traps 2 and 3 were used and loaded with Corsiva green dreams. I approached the trap master with trepidation and apprehension, all the while divesting myself of any form of responsibility. Locked down in the bowels of the traps, the trap master wove his magic and produced remarkable and consistent targets in spite of the winds. Crusher Joyce, being in control of the trap surrounds, operated the speed gun with impressive finesse. The traps performed seamlessly and were topped up after every second round.

4/ Shooters and Squads: 37 nominated shooters in 7 squads all shot from the 15 Mt common mark. This was a wonderful effort, as on the day the MCTC had the highest number of squads participating in Victoria. Example: Geelong had 3 squads, Melbourne x 5 and the zone shoot was to be held the next day.

members of this hard working committee – who all do their best in running this club for the benefit of our members.

12/Following a hiatus in completion, [due to the Crusher luxuriating in Qld] the Crib Point Cup was once again up for grabs. The Db event was a close affair, Doc up by 2, 49/50, Crusher 47/50. The Sb, Doc up by 3. Going into the final Ps the doc was full of confidence and hubris, there was a stumble and the Crusher took the lead, Doc dropped a full bird, Crusher hit and that's all she wrote. Crusher by 2 targets and 2 valuable points. Current scores Doc 7, Crusher 5. The Doc was recently seen entering the rooms of a specialist therapist and is not answering his phone.
